31/01/2019

Dear all in Tower Ravens,

Thank you very much for fundraising for Centrepoint. You raised an incredible £200 this Christmas and we are truly grateful.

Thank you for taking the time and effort to raise funds for Centrepoint within the Tower Ravens dance team. With your support the young people we work with will have a future that they can look forward to.

Together with our partners we support over 10,000 young people each year. We support them with getting back on track and into college, university, an apprenticeship or a job. We offer them a safe room, a warm bed, hot food and, more importantly the practical support they needed to rebuild their lives and one day move into a home of their own.

With your help, these young people make astonishing progress. They take courses to learn new skills, develop their confidence and self esteem and make big plans for the future.

Your kindness is already helping us to transform young lives and I can't thank you enough for choosing to support homeless young people.

From all of us here at Centrepoint and on behalf of the young people we work with, thank you once again.

Yours sincerely,

Lucy Goble
